DOVE OF PEACE FLIES OVER ENGLAND

GENEAL STRIKE IS ENDED WHEELS OF INDUSTRY MOVING

Miners Still Idle—But Early Peace For All In View—Diggers Problem To Be Pushed To Settlement—Threads of Industry Lifted and Brighter Prospects for the Laboring Men Will Probably Result From Nine Days' Tie Up—Common Sense Prevailed—Employers Are Urged To Avoid Vindictiveness.

Great Britain's gigantic industrial strike, a test of endurance that lasted for nine days, is ended.

The General Council of the Trades Union conference heading the efforts of Sir Herbert Samuel, head of the Royal Coal commission, as private mediator, withdrew its order for a sympathetic strike of the Trades union in support of coal miners.

The coal miners remain out, but with the assurance of Premier Stanley Baldwin that no stone will be left unturned to bring the interrupted negotiations between miners and mine owners to a conclusion satisfactory to all.

Now, the nation that has borne with good humor and Spartan fortitude the inconveniences and annoyances inevitable to any general stoppage of industry, is preparing to pick up the pieces and count the cost.

Work was resumed slowly thruout the country. There still are many differences to be adjusted before industry will be in full swing again.

First, there is the question of the reengagement of men who have been notified that their places were filled. Then, too, groups in various sections have announced their unwillingness to resume work until the government emergency control is removed.

But, on the whole, the nation has accepted joyfully the end of what the Trades Union congress has characterized as one of the most orderly stoppages in the history of industrial disputes.

For the preceding 24 hours there had been much talk of peace. Rumors were current that strong influences were at work to bring the government and labor leaders together, and there were important conferences between representatives of miners and the men highest in authority in the Trades Union congress.

Premier Baldwin and his ministers awaited a call from the union leaders until after midnight, but it was not until noon Wednesday that the delegation proceeded to 10 Downing street, the premier's official residence.

Here the proceedings were brief. In a few words the premier was informed that the labor men were there to inform him of the termination of the general strike. At the same time they relied upon his putting into effect his previous promises of a square deal for all.

The termination of the strike was broadcast over the radio, announced in parliament and spread rapidly to every corner of the country. It was received thruout England with mixed feelings, characteristic of the British but mostly with cheers. Even then, however, the public did not give way to the delirium of the moment, but accepted with smiles and light hearts the fact that things would soon begin to return to normal.

Upon just what basis the negotiations for the resumption of work will be taken up has not been revealed to the general public, even if already decided upon by leaders and government. Miners were steadfast in their position that they would not accept any proposals involving a reduction of wages. Mine owners have not been heard from.

It is the widespread opinion and hope of the country that the terms of Sir Herbert Samuel's memorandum submitted to the Trades Union congress in the early hours of the morning and the coal commission's report would form the foundation for a final and lasting settlement.

In Premier Baldwin's words, the ending of the general strike represents "a victory of common sense," and each side feels that it has saved its face. Probably the greatest laurels go to the British public, who refused to be scored or stampeded and took what came with calm and fortitude.

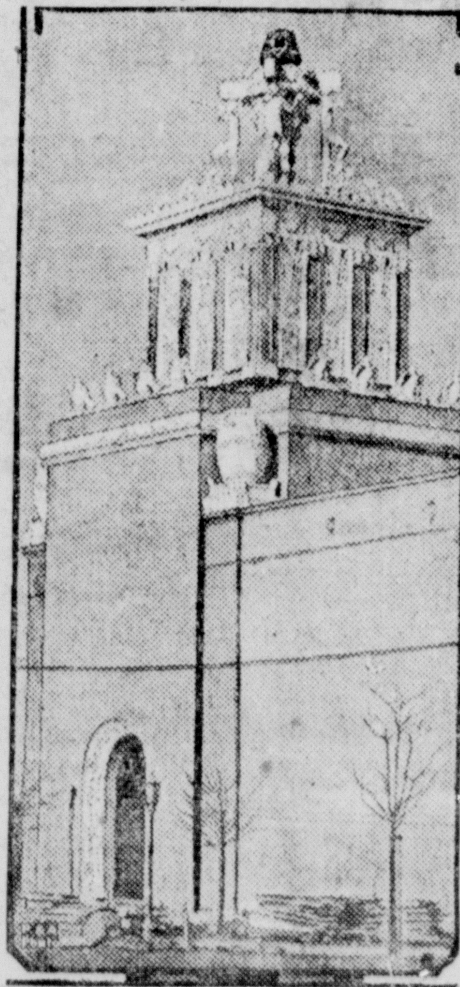

Government emergency services remain in full force, but there is every assurance, should order continue, that they will be withdrawn at the earliest moment.

The British Gazette, the government's official newspaper, published its last issue and instructions have been given to government departments to be ready to disband the forces of voluntary workers gathered in the street and strain of the last week's developments at a moment's notice.

MORE MAD DOGS

Arthur Whitten, Harrison Township, Had Dog Die of Rabies Three Days After Being Bitten.

County Health Commissioner Dr. Geo. W. Heffner, reports that a dog belonging to Arthur Whitten, Harrison township, developed rabies from the bite of a stray dog and died within three days. Two of his children that had been bitten by the dog, are being given the Pasteur treatment by Dr. Hosler at Ashville, at the expense of the County.

Paul, the 9-year-old son of Frank Smith, of Logan street, was bitten on the left leg by a dog belonging to a man named Smallwood who resides in the adjoining house yesterday. Dr. Heffner reported the matter to Police Department and the dog will be watched.

Owners of dogs should either have them vaccinated or keep them securely muzzled when they are off their premises if the epidemic of rabies is to be stamped out. There have been a number of cases of deaths from this horrible malady within the state within the past few months.

After morning service the family dined, and churches and their procedure came in for criticism. Father criticized the sermon. Mother disliked the blunders of the organist. The eldest daughter thought the choir's singing was atrocious. But the subject had to be dropped when the small boy of the family, with the schoolboy's love of fair play, chipped in with the remark:

POULTRY AND HOG

EXPERT COMING.

Dr. H. F. Emick, of the Research department of the George H. Lee company, Omaha, Nebraska, will speak on the Diseases of Poultry and Swine, Their Cause, Treatment and Prevention, May 18, at 2 o'clock at Cloverdell Poultry farm.

He will also conduct a Post-mortem demonstration clinic, teaching all who attend to easily recognize the common ailments of poultry and swine. This demonstration is of great value to every poultry and hog raiser, because the successful treatment of any trouble depends upon an accurate diagnosis and prompt action. Thousands of dollars are lost by farmers every year because of their inability to recognize trouble until it is well started when, if taken in time, loss could have been prevented. Hear this expert and be prepared. You may not be having any losses now, but the time will surely come when the information gained will pay big dividends.

Everyone who has been losing any chickens or pigs, or who has chickens or pigs that are not doing well, is urged to bring a specimen or two for examination and receive free instructions on the treatment, cause and prevention of the trouble. Urge your neighbor to do likewise. The more specimens brought in, the better the demonstration will be. There will be no admission charge, and no one will be solicited to buy anything, inasmuch as this meeting will be held purely for educational purposes with regard to the prevention of disease among poultry and swine. Come! and bring your poultry and pig troubles with you.

WHERE WOULD I FIND THE TWENTY-FIVE THOUSAND?

"How was I to know that he was going to shoot out of that road? Right in front of my radiator. Never sounded his horn. Said he did; but he's a liar."

"And after I took him to the hospital and told 'em to spare no expense in making him comfortable, he turns and sues me. Asks \$25,000. Has three witnesses (all of 'em in the car with him) to swear I was going sixty miles an hour."

"Offers to settle out of court for \$10,000. Lawyer says I might do worse. Says those three witnesses are bad. Three men's word against mine. Says I ought to have found some myself. Listens nice—but there weren't any to find."

"Think I'll hand him over \$10,000 without a fight?"

"But why didn't I buy that insurance that fellow was trying to sell me? Told him I'd driven ten years without an accident and didn't see why I should begin now. He did say something about a lot of fool drivers on the road. Ought to have believed him. But I didn't think they made 'em as dumb and crooked as that fellow."

"What did he say insurance cost? Less than a hundred, I know. Lost ten times that amount already in sales just worrying about this. Funny how a thing like this upsets a fellow. What's the use of working if you've got to hand over everything you've made to some fool who doesn't know how to drive a car?"

"Wonder what the jury will give him? Seen some pretty big awards lately in the newspapers. Bigger than \$25,000, some of 'em. Never can tell what a jury will do. \$25,000 (of my money) wouldn't seem much to them."

"Where would I find the twenty-five? Wish that insurance company were handling the case for me. Wonder if I hadn't better tell my lawyer if he can settle for \$7,500, to go ahead and do it. Know a hundred better uses for \$7,500. Hate to take chances on a jury, tho."

"Taught me a lesson. Won't catch me driving a car again unless it's fully insured. Lemme see, that insurance man's telephone number was 961 or 584, guess I better call him now."

PREPARATIONS FOR POPPY DAY

Being Made By American Legion Auxiliary—National Flower of the American Legion To Be Sold.

The Armistice was signed on Nov. 11, 1918, but we all know that to many, many veterans this day did not mean the ceasing of their sufferings. While some have forgotten the ravages that were endured during the time of the war there are many among us whose sufferings caused by this terrible conflict will not let them, nor those who see them forget.

The poppy was chosen as the National flower of the American Legion because of the profusion of blooms of this flower that decked the battlefields, and as the real time for the sale of this flower should be Armistice Day but because of the numerous other drives that are held at this particular time it was decided to hold the sale before Memorial Day which has an equal significance to the survivors of all wars.

The Unit to Howard Hall Post held their regular meeting Monday night in the Post room at Memorial Hall and at the conclusion of the meeting the ladies made poppies which they will sell on a day which will be set aside by Mayor Fitzpatrick, for that purpose and which will be announced later.

Last year the local organization spent quite a sum of money doing relief work both for men who are in the hospitals in giving them delicacies and also some local relief which it has been doing in connection with the local chapter of the American Red Cross.

At the meeting Monday night the quota which the District Headquarters sends to each Unit and which they must fill, was read and a committee appointed to buy these garments, which are sent to the Hospital at Dayton, Ohio.

The members of the Auxiliary who will sell poppies on the streets on the day appointed by the mayor will be mothers, wives or sisters of men who saw service in the World War and are making a plea for courtesy through these columns as it is not a pleasant task and there will be no urging used nor strong arm methods in the sale but it is hoped that the thousand poppies which the auxiliary have made will be disposed of at this sale. They will be sold for ten cents each or as much as you may wish to give for them.

Every citizen should wear a poppy on Memorial Day in memory of those who lost their lives in the war.

There was quite a marked attendance at this week's meeting and it is hoped that this will continue.

Announcement is also made at this time that all members of the Auxiliary are urged to attend services at the M. E. Church on Sunday, May 23rd and to meet at the Memorial Hall before ten o'clock and march across to the church with the members of Groce Post and Legion.

HOFF REVEALS HOW HE BREAKS TRACK RECORDS

With Style Unlike American Vaulters, He Expects to Clear Bar 14 Feet, 2 Inches.

The style of pole vaulting which has enabled Charles Hoff, the great Norwegian one-man track team, to surpass all previous records in that event varies somewhat from the form used by American vaulters, who start to lift their bodies by their arms almost as soon as they have planted their poles and leaped into the air.

"It's mostly the speed of the run that carries the pole to a vertical position and the vaulter's body into the air," he said, explaining his secret to Arthur Grahame for the June Popular Science Monthly. Taking a cane, he demonstrated.

"It is easier," he said, indicating a point eighteen inches from the top of the stick, "to lift a weight fastened here than it would be to lift a weight—a long fingered hand moved almost to the top of the cane—fastened here. You see? The lower the weight, the less power is required to swing the pole into a vertical position. For that reason, after I have planted the pole and made my leap, I keep my arms almost fully extended above my head until the pole is approaching the vertical; then I lift my body by the arms and cross the bar without using the jack-knife kick that most American vaulters use. My way is best for me—perhaps theirs is best for them."

Hoff's present outdoor world record, made in Denmark in 1923, is 13 feet, 9¾ inches; but last September, in Abo, Finland, the home town of Paavo Nurmi, he vaulted 13 feet, 11¾ inches, a mark which probably will be accepted as a new world record at the next meeting of the Amateur Athletic Federation.

Hoff expects to do 14 feet, 2 inches in the American championships in Philadelphia in July. The limit of human ability in this event? Hoff shrugs his shoulders. Perhaps it will be 14 feet, 6 inches; perhaps even 15 feet. He does not think that any vaulter ever will beat 15 feet.

CRIME WAVE?

It could hardly be called that.

Yet, many a time it has been said that it is a crime to let shoes go too long before having them resoled.

WIFE SLAYER SECOND DEGREE MURDER CHARGE

Jacob Nesbitt Has Shadow of
Electric Chair Removed
From Path.

Troy, O., May 13, (UP).—The state will seek an early trial for Jacob Nesbitt, confessed wife slayer indicted on charges of second degree murder.

"We are ready to go to trial Monday if the court is prepared to start then," Special Prosecutor Alva B. Campbell announced.

"I am satisfied with the indictment the grand jury returned," he said. "I am sure, as things now stand, that the prosecution will be able to convict."

It was not known definitely whether the former Ohio State university student who confessed he killed his wife during a "red rage" will plead guilty.

A plea of guilty to second degree murder automatically would carry a sentence of life imprisonment.

It was regraded as certain the court will appoint W. A. Haines, one of Miami county's best known criminal lawyers to assist L. H. Shipman, Nesbitt's counsel since the day following the murder of the young salesman's wife.

Because it would take Haines some time to familiarize himself with the case, it was regarded as unlikely that the trial, if Nesbitt does not plead guilty, will be held before early in June.

Nesbitt probably will be arraigned Monday. With the shadow of the electric chair removed from his path, he was nerving himself today for ordeal.

CHRYSLER IMPERIAL
"80" TO BE PACEMAKER.
A Chrysler Imperial "80" roadster will set the pace for the thirty-odd contestants entered in the fourteenth annual edition of the nation's greatest speed classic, which will be run this year at the Indianapolis Motor Speedway on Monday, May 31.

To be chosen pacemaker of this field is a signal honor to any car and to its manufacturer and is one that is awarded on the basis of merit and known performance.

To win such an honor only two years after the first car of the name was produced, as the Chrysler has done, is, therefore, a high honor indeed.

As the model indicates, the Chrysler Imperial "80" is capable of maintaining a speed of 80 and more miles per hour and is, therefore, one of the fastest stock cars in the world. Experience has shown, too, that this fleet beauty of the highways possesses the added advantage of being exceptionally smooth riding, responsive to the driver's lightest touch, and capable of sustained performance that has proved a revelation to many.

Origin of "Match"
The derivation of the term "match" as used in its present sense is obscure. It is probably from the Greek and Latin "myxa," meaning a nozzle of a lamp. In 1337 we find reference in literature to matches, the name being applied to the wick of a candle or lamp. The earliest reference to matches in their present sense is found in 1530.

AMUSEMENTS

Raymond Griffith—He of the high silk hat and winning smile—returned to our local midst last night at the Met. theater in a rip-roaring film, entitled "Hands Up!" and demonstrated anew that he is without a peer in the field of pantomimic comedy.

The background of this new vehicle is the hectic Civil war period, and the irrepressible Griffith is presented as a happy-go-lucky young aide to General Robert E. Lee. His thrilling adventures as a Confederate spy conclusively prove that there is a funny side to war—at least in the movies!

Threading its way thru the stirring action of the story is an ingeniously developed romance in which our hero is kept in a feverish state of activity making love to two pretty girls. Unable to decide which he loves best, Griffith is forced in the end to take the only logical way out, and this solution is the final, merry touch to a picture which keeps the spectators in a continuous, hilarious uproar.

Clarence Badger, who deserves a goodly measure of applause for his deft and intelligent directions, has surrounded the star with a brilliant supporting cast, including such outstanding players as Mack Ewain, Montagu Love, Marion Nixon and Virginia Lee Corbin.

Worthy of particular mention are the many famous historical figures that enter into the serious background of the story, such as Abraham Lincoln, General Lee, Brigham Young and Sitting Bull.

"Hands Up" was written especially for Griffith by Reginald Morris, and very capably adapted to the screen by Monty Brice and Lloyd Corrigan.

Lesson for May 16

ABRAHAM AND THE STRANGERS

LESSON TEXT—Genesis 18:1-19.
GOLDEN TEXT—All nations of the earth shall be blessed indeed.—Gen. 18:18.

PRIMARY TOPIC—Abraham Is Kind to Strangers
JUNIOR TOPIC—Abraham Welcomes Strangers

INTERMEDIATE AND SENIOR TOPIC—Abraham's Hospitality
YOUNG PEOPLE AND ADULT TOPIC—Why God Chose Abraham.

I. The Lord Appeared to Abraham (vv. 1-8).

While Abraham sat in his tent door, he lifted up his eyes and lo, three men stood by him. His reception of these three men is a beautiful picture of oriental hospitality. These beings, while called men are also called angels (see 19:1). When the men arose to depart, Abraham according to custom, accompanied his guests some distance on the way. One of the men was the angel of Jehovah, or Jehovah manifest in human form. The Jehovah angel remained behind to commune with Abraham. This is clear from the fact that three started out—one talked with Abraham and only two entered Sodom (see 18:22 and 19:1).

II. God's Promise to Abraham Reaffirmed (vv. 9-15).

The Lord communed with him about his personal interests, showing how Sarah should have a son in her old age, according to the covenant promise. This conversation being overheard by Sarah from her place in the tent only provoked laughter on her part. Although she thus expressed unbelief, it doubtless was a great comfort to Abraham who had been awaiting the fulfillment of the promise for years. "Is anything too hard for the Lord?" is a striking rebuke to Sarah's unbelief, and shows that the Lord is able to discern even our inmost thoughts.

III. The Doom of Sodom and Gomorrah Revealed to Abraham (vv. 16-21).

The Lord now communed with Abraham about Sodom and Gomorrah. Though Abraham had no personal interest in Sodom, the Lord revealed unto him His secret purpose concerning it. He did not hunt up Lot to make known unto him his purpose concerning Sodom. He never goes to the persons who are entangled with the things of the world. The only way to know God's thought touching the age in which we live is to remain separate from it. "The secret of the Lord is with them that fear Him." (Ps. 25:15). The reason for this disclosure may be stated as follows:

1. Because he was his friend (Jas. 2:23; John 15:15). Friends confide in each other. The master reveals his purposes to his friends, not to his servants.

2. Because he was to be the head of a great nation (v. 18).

As such he was to be the medium of blessings to them. The interests of humanity were at stake in the destruction of Sodom. It was good that Abraham should know that he might be able to instruct coming generations.

3. Because of the responsibility of instructing his own family aright (v. 19). God is always careful that His judgments have a rational explanation, serving to deter others from the same sin. The Lord declared that His purpose was to go down and see whether the Sodomites had done according to the cry which had come up from it (v. 21).

IV. Abraham's Intercession for Sodom and Gomorrah (vv. 22-23).

The two men departed for Sodom, leaving Abraham alone in the presence of the Lord. He stood there as an intercessor. In this unselfish act Abraham represents our High Priest (Heb. 7:23-28; Rom. 8:34; 1 John 2:1). Jesus possesses the divine right to stand before the Father. Abraham made his plea on the ground of justice to the righteous who might be in the city. Because of the infinite sacrifice which Christ made by His blood for our sins. He can plead our cause before God on the ground of strict justice. He ventured his plea six times, each time diminishing the number. We should learn from this that petitions granted give encouragement to ask for others. Abraham's power as an intercessor was limited. He was afraid of overdraw his account with the Lord. This is not the case with our High Priest. His credit and influence with the Father are infinite. He is able to save unto the uttermost those who come unto God by Him, seeing He ever liveth to make intercession for them (Heb. 7:25).

The Road of Life

It is not designed that the road should be made too smooth for us here upon earth.—Jane Porter.

The Stain of Sin

Besides the guilt of sin and the power of sin there is the stain of sin.—Nathaniel Culverwell.

To Be Converted

Old European Race

The origin of the Basques is unsettled. The name is applied to a peculiar race, dwelling on the slopes of the Pyrenees. They occupy the provinces of Biscay, Alava, Gulpuzcoa and Navarre in Spain, and two French departments, Bayonne and Mauleon.

Brothers Left a Name

The word cant, hypocritical talk, is derived from two bigoted Covenanters, Alexander and Andrew Cant, who persecuted their opponents without mercy and at the same time prayed for victims of religious persecution.

Getting It Right

Two American negro soldiers were discussing musical instruments.
"Yas," said one. "Ise gwine to get me a eucallpts."
"A what?" queried the other.
"A eucallpts—dat's a musical instrument, fool."
"Go on, nigger! You can't kid me—dat's one of the books of the Bible."

An Idiotic Life

Letty—How did your brother happen to lose his mind?
Betty—Well, every morning he jumped from under a crazy quilt after being awakened by a cuckoo clock, and after looking at himself in a cracked mirror that wasn't all there, began exercising with dumb-bells. Is it any wonder?

Sphere of Comets

The Naval observatory says large comets have sometimes reached a point near the sun before being discovered. This was the case with the great comet of 1843. A comet might approach its perihelion point from a direction nearly in line with the sun, as seen from the earth, which would make it difficult to observe.

Slam Here, Somewhere

"A butcher was driving a cow to the slaughter pen," relates the Altoona Tribune, "when a stranger stopped him and asked, 'What are you going to do with that cow?' 'I am going to kill her,' said the butcher. 'Oh, I wouldn't do that,' said the stranger. 'You feed her for awhile and I think she will live.'"

England's "Golden Age"

The term is applied to the reign of Queen Elizabeth. It was a period in which patriotism assumed proportions never before attained in England. Famous explorers, such as Sir Francis Drake, Froisher and Gilbert, set out upon adventurous quests. The navy of England swept the armada from the sea. Christopher Marlowe, Lyly, Kild, Peele, Stern and Shakespeare were creating the so-called Elizabethan drama.

JUNIOR CHOIR OPERETTA WAS MOST PLEASING

"Hearts and Blossoms" Was
Enjoyed by Good Audience
at Lutheran Church.

One of the most delightful operettas by the local talent this year "Hearts and Blossoms," was given by the Junior choir of the Lutheran church, Wednesday evening, May 12, and the playlet will be repeated this evening in the social rooms of the church.

The music was entrancing, the characterization was splendid and the amateur acting was not only good but was exceptionally well done, when one takes into consideration the short time for preparation, drilling raw material to make good actors. It was real acting, better than a movie screen picture.

Miss Helen Bartholomew as Mrs. Horace Manning, in the character of a mother, did her stunt to perfection. Hortense Reid as Betty; Dudley Carpenter as Bob; Helen Crist as Eileen, Robert Bowers as Bruce, two acquaintances at Sunset lodge, all helped to make the play the success it was. They did not forget a line and were not prompted.

Grace Bowers as Marie, and Priscilla Trimmer as June, were love smitten sisters and carried out their character work to perfection. Hillard Gehres as Jerry Higgins, and Luther Bowers as Philip Brandon, sweethearts of Marie and June also carried their acting out in splendid style. They were all that the doting stage lovers should be. Carl Leist in the character of Matthew Brandon around which the whole theme of the play and the plot was built, vied with Miss Helen Bartholomew as mother, for the stellar role in the cast.

Gladden Troutman as Samson Bonapart, the colored bell boy, and Mary Crist as Malindy, the mulatto colored maid were the mirthmakers of the cast. Their work was extraordinary and their makeup was a scream in itself. Their acting was so natural and graceful that it seemed they were professionals, brought in to help the other amateurs along. The whole show was splendidly done, but without Samson and Malinda, who were curtain raisers, the show would not have made the hit it did.

The operetta was given under the direction of Mrs. James J. Moffitt, choir leader and Miss Mary Heffner, choir pianist. Both were proud of the work accomplished and they have reason to be, as the play made such a decided hit.

The singing, solo and chorus work were exceptionally well rendered. The players were greeted with a good house, who were pleased with the singing and dancing as well.

DOVE OF PEACE FLIES OVER ENGLAND

GENEAL STRIKE IS ENDED WHEELS OF INDUSTRY MOVING

Miners Still Idle—But Early Peace For All In View—Diggers Problem To Be Pushed To Settlement—Threads of Industry Lifted and Brighter Prospects for the Laboring Men Will Probably Result From Nine Days' Tie Up—Common Sense Prevailed—Employers Are Urged To Avoid Vindictiveness.

Great Britain's gigantic industrial strike, a test of endurance that lasted for nine days, is ended.

The General Council of the Trades Union conference heading the efforts of Sir Herbert Samuel, head of the Royal Coal commission, as private mediator, withdrew its order for a sympathetic strike of the Trades union in support of coal miners.

The coal miners remain out, but with the assurance of Premier Stanley Baldwin that no stone will be left unturned to bring the interrupted negotiations between miners and mine owners to a conclusion satisfactory to all.

Now, the nation that has borne with good humor and Spartan fortitude the inconveniences and annoyances inevitable to any general stoppage of industry, is preparing to pick up the pieces and count the cost.

Work was resumed slowly thruout the country. There still are many differences to be adjusted before industry will be in full swing again.

First, there is the question of the reengagement of men who have been notified that their places were filled. Then, too, groups in various sections have announced their unwillingness to resume work until the government emergency control is removed.

But, on the whole, the nation has accepted joyfully the end of what the Trades Union congress has characterized as one of the most orderly stoppages in the history of industrial disputes.

For the preceding 24 hours there had been much talk of peace. Rumors were current that strong influences were at work to bring the government and labor leaders together, and there were important conferences between representatives of miners and the men highest in authority in the Trades Union congress.

Premier Baldwin and his ministers awaited a call from the union leaders until after midnight, but it was not until noon Wednesday that the delegation proceeded to 10 Downing street, the premier's official residence.

Here the proceedings were brief. In a few words the premier was informed that the labor men were there to inform him of the termination of the general strike. At the same time they relied upon his putting into effect his previous promises of a square deal for all.

The termination of the strike was broadcast over the radio, announced in parliament and spread rapidly to every corner of the country. It was received thruout England with mixed feelings, characteristic of the British but mostly with cheers. Even then, however, the public did not give way to the delirium of the moment, but accepted with smiles and light hearts the fact that things would soon begin to return to normal.

Upon just what basis the negotiations for the resumption of work will be taken up has not been revealed to the general public, even if already decided upon by leaders and government. Miners were steadfast in their position that they would not accept any proposals involving a reduction of wages. Mine owners have not been heard from.

It is the widespread opinion and hope of the country that the terms of Sir Herbert Samuel's memorandum submitted to the Trades Union congress in the early hours of the morning and the coal commission's report would form the foundation for a final and lasting settlement.

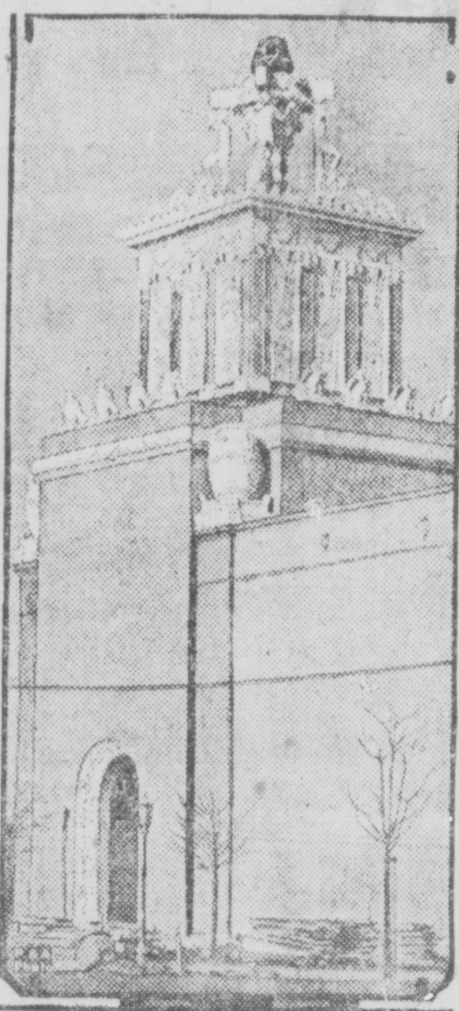

In Premier Baldwin's words, the ending of the general strike represents "a victory of common sense," and each side feels that it has saved its face. Probably the greatest laurels go to the British public, who refused to be scored or stampeded and took what came with calm and fortitude.

Government emergency services remain in full force, but there is every assurance, should order continue, that they will be withdrawn at the earliest moment.

The British Gazette, the government's official newspaper, published its last issue and instructions have been given to government departments to be ready to disband the forces of voluntary workers gathered in the street and strain of the last week's developments at a moment's notice.

STAGED GUN BATTLE.
Proctorville—Alleged moonshiners and police staged a gun battle here, resulting in the wounding of two men, one perhaps fatally. Those shot were Samuel Elliott, 19, who was reported near death, and Leo Bragg, Elliott's companion. The two men were operating a still when police swooped down upon them, it was said.

MORE MAD DOGS

Arthur Whitten, Harrison Township, Had Dog Die of Rabies Three Days After Being Bitten.

County Health Commissioner Dr. Geo. W. Heffner, reports that a dog belonging to Arthur Whitten, Harrison township, developed rabies from the bite of a stray dog and died within three days. Two of his children that had been bitten by the dog, are being given the Pasteur treatment by Dr. Hosler at Ashville, at the expense of the County.

Paul, the 9-year-old son of Frank Smith, of Logan street, was bitten on the left leg by a dog belonging to a man named Smallwood who resides in the adjoining house yesterday. Dr. Heffner reported the matter to Police Department and the dog will be watched.

Owners of dogs should either have them vaccinated or keep them securely muzzled when they are off their premises if the epidemic of rabies is to be stamped out. There have been a number of cases of deaths from this horrible malady within the state within the past few months.

SCOTTY'S PLAN

Two Scotchmen had planned a hike into the country and had agreed to meet at a certain place at five in the morning. Only one of them owned an alarm clock, but he finally hit on a solution of rousing the other.

"Mac," he said, "when the clock goes off I'll get up and ring ye on a public telephone. But, be sure and don't answer it, so I can get my aickel back."

WELL WORTH IT

After morning service the family dined, and churches and their procedure came in for criticism. Father criticized the sermon. Mother disliked the blunders of the organist. The eldest daughter thought the choir's singing was atrocious. But the subject had to be dropped when the small boy of the family, with the schoolboy's love of fair play, chipped in with the remark:

POULTRY AND HOG

EXPERT COMING.

Dr. H. F. Emick, of the Research department of the George H. Lee company, Omaha, Nebraska, will speak on the Diseases of Poultry and Swine, Their Cause, Treatment and Prevention, May 18, at 2 o'clock at Cloverdell Poultry farm.

He will also conduct a Post-mortem demonstration clinic, teaching all who attend to easily recognize the common ailments of poultry and swine. This demonstration is of great value to every poultry and hog raiser, because the successful treatment of any trouble depends upon an accurate diagnosis and prompt action. Thousands of dollars are lost by farmers every year because of their inability to recognize trouble until it is well started when, if taken in time, loss could have been prevented. Hear this expert and be prepared. You may not be having any losses now, but the time will surely come when the information gained will pay big dividends.

Everyone who has been losing any chickens or pigs, or who has chickens or pigs that are not doing well, is urged to bring a specimen or two for examination and receive free instructions on the treatment, cause and prevention of the trouble. Urge your neighbor to do likewise. The more specimens brought in, the better the demonstration will be. There will be no admission charge, and no one will be solicited to buy anything, inasmuch as this meeting will be held purely for educational purposes with regard to the prevention of disease among poultry and swine. Come! and bring your poultry and pig troubles with you. Cloverdell Poultry Farm.

WHERE WOULD I FIND THE TWENTY-FIVE THOUSAND?

"How was I to know that he was going to shoot out of that road? Right in front of my radiator. Never sounded his horn. Said he did; but he's a liar."

"And after I took him to the hospital and told 'em to spare no expense in making him comfortable, he turns and sues me. Asks \$25,000. Has three witnesses (all of 'em in the car with him) to swear I was going sixty miles an hour."

"Offers to settle out of court for \$10,000. Lawyer says I might do worse. Says those three witnesses are bad. Three men's word against mine. Says I ought to have found some myself. Listens nice—but there weren't any to find."

"Think I'll hand him over \$10,000 without a fight?"

"But why didn't I buy that insurance that fellow was trying to sell me? Told him I'd driven ten years without an accident and didn't see why I should begin now. He did say something about a lot of fool drivers on the road. Ought to have believed him. But I didn't think they made 'em as dumb and crooked as that fellow."

"What did he say insurance cost? Less than a hundred, I know. Lost ten times that amount already in sales just worrying about this. Funny how a thing like this upsets a fellow. What's the use of working if you've got to hand over everything you've made to some fool who doesn't know how to drive a car?"

"Wonder what the jury will give him? Seen some pretty big awards lately in the newspapers. Bigger than \$25,000, some of 'em. Never can tell what a jury will do. \$25,000 (of my money) wouldn't seem much to them."

"Where would I find the twenty-five? Wish that insurance company were handling the case for me. Wonder if I hadn't better tell my lawyer if he can settle for \$7,500, to go ahead and do it. Know a hundred better uses for \$7,500. Hate to take chances on a jury, tho."

"Taught me a lesson. Won't catch me driving a car again unless it's fully insured. Lemme see, that insurance man's telephone number was 961 or 584, guess I better call him now."

PREPARATIONS FOR POPPY DAY

Being Made By American Legion Auxiliary—National Flower of the American Legion To Be Sold.

The Armistice was signed on Nov. 11, 1918, but we all know that to many, many veterans this day did not mean the ceasing of their sufferings. While some have forgotten the ravages that were endured during the time of the war there are many among us whose sufferings caused by this terrible conflict will not let them, nor those who see them forget.

The poppy was chosen as the National flower of the American Legion because of the profusion of blooms of this flower that decked the battlefields, and as the real time for the sale of this flower should be Armistice Day but because of the numerous other drives that are held at this particular time it was decided to hold the sale before Memorial Day which has an equal significance to the survivors of all wars.

The Unit to Howard Hall Post held their regular meeting Monday night in the Post room at Memorial Hall and at the conclusion of the meeting the ladies made poppies which they will sell on a day which will be set aside by Mayor Fitzpatrick, for that purpose and which will be announced later.

Last year the local organization spent quite a sum of money doing relief work both for men who are in the hospitals in giving them delicacies and also some local relief which it has been doing in connection with the local chapter of the American Red Cross.

At the meeting Monday night the quota which the District Headquarters sends to each Unit and which they must fill, was read and a committee appointed to buy these garments, which are sent to the Hospital at Dayton, Ohio.

The members of the Auxiliary who will sell poppies on the streets on the day appointed by the mayor will be mothers, wives or sisters of men who saw service in the World War and are making a plea for courtesy through these columns as it is not a pleasant task and there will be no urging used nor strong arm methods in the sale but it is hoped that the thousand poppies which the auxiliary have made will be disposed of at this sale. They will be sold for ten cents each or as much as you may wish to give for them.

Every citizen should wear a poppy on Memorial Day in memory of those who lost their lives in the war.

There was quite a marked attendance at this week's meeting and it is hoped that this will continue.

Announcement is also made at this time that all members of the Auxiliary are urged to attend services at the M. E. Church on Sunday, May 23rd and to meet at the Memorial Hall before ten o'clock and march across to the church with the members of Groce Post and Legion.

"Go away from me," said the daintily dressed woman on the street.

HOFF REVEALS HOW HE BREAKS TRACK RECORDS

With Style Unlike American Vaulters, He Expects to Clear Bar 14 Feet, 2 Inches.

The style of pole vaulting which has enabled Charles Hoff, the great Norwegian one-man track team, to surpass all previous records in that event varies somewhat from the form used by American vaulters, who start to lift their bodies by their arms almost as soon as they have planted their poles and leaped into the air.

"It's mostly the speed of the run that carries the pole to a vertical position and the vaulter's body into the air," he said, explaining his secret to Arthur Grahame for the June Popular Science Monthly. Taking a cane, he demonstrated.

"It is easier," he said, indicating a point eighteen inches from the top of the stick, "to lift a weight fastened here than it would be to lift a weight—a long fingered hand moved almost to the top of the cane—"fastened here. You see? The lower the weight, the less power is required to swing the pole into a vertical position. For that reason, after I have planted the pole and made my leap, I keep my arms almost fully extended above my head until the pole is approaching the vertical; then I lift my body by the arms and cross the bar without using the jack-knife kick that most American vaulters use. My way is best for me—perhaps theirs is best for them."

Hoff's present outdoor world record, made in Denmark in 1923, is 13 feet, 9 3/4 inches; but last September, in Abo, Finland, the home town of Paavo Nurmi, he vaulted 13 feet, 11 3/4 inches, a mark which probably will be accepted as a new world record at the next meeting of the Amateur Athletic Federation.

Hoff expects to do 14 feet, 2 inches in the American championships in Philadelphia in July. The limit of human ability in this event? Hoff shrugs his shoulders. Perhaps it will be 14 feet, 6 inches; perhaps even 15 feet. He does not think that any vaulter ever will beat 15 feet.

It could hardly be called that.

Yet, many a time it has been said that it is a crime to let shoes go too long before having them resoled.

Troy, O., May 13, (UP). —The state will seek an early trial for Jacob Nesbitt, confessed wife slayer indicted on charges of second degree murder.

"We are ready to go to trial Monday if the court is prepared to start then," Special Prosecutor Alva B. Campbell announced.

"I am satisfied with the indictment the grand jury returned," he said. "I am sure, as things now stand, that the prosecution will be able to convict."

It was not known definitely whether the former Ohio State university student who confessed he killed his wife during a "red rage" will plead guilty.

A plea of guilty to second degree murder automatically would carry a sentence of life imprisonment.

It was regarded as certain the court will appoint W. A. Haines, one of Miami county's best known criminal lawyers to assist L. H. Shipman, Nesbitt's counsel since the day following the murder of the young salesman's wife.

Because it would take Haines some time to familiarize himself with the case, it was regarded as unlikely that the trial, if Nesbitt does not plead guilty, will be held before early in June.

Nesbitt probably will be arraigned Monday. With the shadow of the electric chair removed from his path, he was nerving himself today for ordeal.

CHRYSLER IMPERIAL
"80" TO BE PACEMAKER.

A Chrysler Imperial "80" roadster will set the pace for the thirty-odd contestants entered in the fourteenth annual edition of the nation's greatest speed classic, which will be run this year at the Indianapolis Motor Speedway on Monday, May 31.

To be chosen pacemaker of this field is a signal honor to any car and to its manufacturer and is one that is awarded on the basis of merit and known performance.

To win such an honor only two years after the first car of the name was produced, as the Chrysler has done, is, therefore, a high honor indeed.

As the model indicates, the Chrysler Imperial "80" is capable of maintaining a speed of 80 and more miles per hour and is, therefore, one of the fastest stock cars in the world. Experience has shown, too, that this fleet beauty of the highways possesses the added advantage of being exceptionally smooth riding, responsive to the driver's lightest touch, and capable of sustained performance that has proved a revelation to many.

Origin of "Match"
The derivation of the term "match" as used in its present sense is obscure. It is probably from the Greek and Latin "myxa," meaning a nozzle of a lamp. In 1337 we find reference in literature to matches, the name being applied to the wick of a candle or lamp. The earliest reference to matches in their present sense is found in 1530.

AMUSEMENTS

Raymond Griffith—He of the high silk hat and winning smile—returned to our local midst last night at the Met. theater in a rip-roaring film, entitled "Hands Up!" and demonstrated anew that he is without a peer in the field of pantomimic comedy.

The background of this new vehicle is the hectic Civil war period, and the irrepressible Griffith is presented as a happy-go-lucky young aide to General Robert E. Lee. His thrilling adventures as a Confederate spy conclusively prove that there is a funny side to war—at least in the movies!

Threading its way thru the stirring action of the story is an ingeniously developed romance in which our hero is kept in a feverish state of activity making love to two pretty girls. Unable to decide which he loves best, Griffith is forced in the end to take the only logical way out, and this solution is the final, merry touch to a picture which keeps the spectators in a continuous, hilarious uproar.

Clarence Badger, who deserves a goodly measure of applause for his deft and intelligent directions, has surrounded the star with a brilliant supporting cast, including such outstanding players as Mack Ewain, Montagu Love, Marion Nixon and Virginia Lee Corbin.

Worthy of particular mention are the many famous historical figures that enter into the serious background of the story, such as Abraham Lincoln, General Lee, Brigham Young and Sitting Bull.

"Hands Up" was written especially for Griffith by Reginald Morris, and very capably adapted to the screen by Monty Brice and Lloyd Corrigan.

Lesson for May 16

ABRAHAM AND THE STRANGERS

LESSON TEXT—Genesis 18:1-19.
GOLDEN TEXT—All nations of the earth shall be blessed indeed.—Gen. 18:18.
PRIMARY TOPIC—Abraham Is Kind to Strangers
JUNIOR TOPIC—Abraham Welcomes Three Strangers.
INTERMEDIATE AND SENIOR TOPIC—Abraham's Hospitality.
YOUNG PEOPLE AND ADULT TOPIC—Why God Chose Abraham.

I. The Lord Appeared to Abraham (vv. 1-8).

While Abraham sat in his tent door, he lifted up his eyes and lo, three men stood by him. His reception of these three men is a beautiful picture of oriental hospitality. These beings, while called men are also called angels (see 19:1). When the men arose to depart, Abraham according to custom, accompanied his guests some distance on the way. One of the men was the angel of Jehovah, or Jehovah manifest in human form. The Jehovah angel remained behind to commune with Abraham. This is clear from the fact that three started out—one talked with Abraham and only two entered Sodom (see 18:22 and 19:1).

II. God's Promise to Abraham Reaffirmed (vv. 9-15).

The Lord communed with him about his personal interests, showing how Sarah should have a son in her old age, according to the covenant promise. This conversation being overheard by Sarah from her place in the tent only provoked laughter on her part. Although she thus expressed unbelief, it doubtless was a great comfort to Abraham who had been awaiting the fulfillment of the promise for years. "Is anything too hard for the Lord?" is a striking rebuke to Sarah's unbelief, and shows that the Lord is able to discern even our inmost thoughts.

III. The Doom of Sodom and Gomorrah Revealed to Abraham (vv. 16-21).

The Lord now communed with Abraham about Sodom and Gomorrah. Though Abraham had no personal interest in Sodom, the Lord revealed unto him His secret purpose concerning it. He did not hunt up Lot to make known unto him his purpose concerning Sodom. He never goes to the persons who are entangled with the things of the world. The only way to know God's thought touching the age in which we live is to remain separate from it. "The secret of the Lord is with them that fear Him." (Ps. 25:15). The reason for this disclosure may be stated as follows:

1. Because he was his friend (Jas. 2:23; John 15:15). Friends confide in each other. The master reveals his purposes to his friends, not to his servants.

2. Because he was to be the head of a great nation (v. 18).

As such he was to be the medium of blessings to them. The interests of humanity were at stake in the destruction of Sodom. It was good that Abraham should know that he might be able to instruct coming generations.

3. Because of the responsibility of instructing his own family aright (v. 19). God is always careful that His judgments have a rational explanation, serving to deter others from the same sin. The Lord declared that His purpose was to go down and see whether the Sodomites had done according to the cry which had come up from it (v. 21).

IV. Abraham's Intercession for Sodom and Gomorrah (vv. 22-23).

The two men departed for Sodom, leaving Abraham alone in the presence of the Lord. He stood there as an intercessor. In this unselfish act Abraham represents our High Priest (Heb. 7:23-28; Rom. 8:34; I John 2:1). Jesus possesses the divine right to stand before the Father. Abraham made his plea on the ground of justice to the righteous who might be in the city. Because of the infinite sacrifice which Christ made by His blood for our sins. He can plead our cause before God on the ground of strict justice. He ventured his plea six times, each time diminishing the number. We should learn from this that petitions granted give encouragement to ask for others. Abraham's power as an intercessor was limited. He was afraid of overdraw his account with the Lord. This is not the case with our High Priest. His credit and influence with the Father are infinite. He is able to save unto the uttermost those who come unto God by Him, seeing He ever liveth to make intercession for them (Heb. 7:25).

The Road of Life

It is not designed that the road should be made too smooth for us here upon earth.—Jane Porter.

The Stain of Sin

Besides the guilt of sin and the power of sin there is the stain of sin.—Nathaniel Culverwell.

To Be Converted

A man to be converted has to give up his will, his ways and his thoughts.—D. L. Moody.

Old European Race
The origin of the Basques is unsettled. The name is applied to a peculiar race, dwelling on the slopes of the Pyrenees. They occupy the provinces of Biscay, Alava, Guipuzcoa and Navarre in Spain, and two French departments, Bayonne and Mauleon.

Brothers Left a Name

The word cant, hypocritical talk, is derived from two bigoted Covenanters, Alexander and Andrew Cant, who persecuted their opponents without mercy and at the same time prayed for victims of religious persecution.

Sphere of Comets

The Naval observatory says large
comets have sometimes reached a
point near the sun before being dis-
covered. This was the case with the
great comet of 1843. A comet might
approach its perihelion point from a
direction nearly in line with the sun,
as seen from the earth, which would
make it difficult to observe.

Slam Here, Somewhere

"A butcher was driving a cow to the slaughter pen," relates the Altona Tribune, "when a stranger stopped him and asked, 'What are you going to do with that cow?' 'I am going to kill her,' said the butcher. 'Oh, I wouldn't do that,' said the stranger. 'You feed her for awhile and I think she will live.'"

England's "Golden Age"

The term is applied to the reign of Queen Elizabeth. It was a period in which patriotism assumed proportions never before attained in England. Famous explorers, such as Sir Francis Drake, Frobisher and Gilbert, set out upon adventurous quests. The navy of England swept the armada from the sea. Christopher Marlowe, Lyly, Kild, Peele, Stern and Shakespeare were creating the so-called Elizabethan drama.

JUNIOR CHOIR OPERETTA WAS MOST PLEASING

"Hearts and Blossoms" Was
Enjoyed by Good Audience
at Lutheran Church.

One of the most delightful operettas by the local talent this year "Hearts and Blossoms," was given by the Junior choir of the Lutheran church, Wednesday evening, May 12, and the playlet will be repeated this evening in the social rooms of the church.

The music was entrancing, the characterization was splendid and the amateur acting was not only good but was exceptionally well done, when one takes into consideration the short time for preparation, drilling raw material to make good actors. It was real acting, better than a movie screen picture.

Miss Helen Bartholomew as Mrs. Horace Manning, in the character of a mother, did her stunt to perfection. Hortense Reid as Betty; Dudley Carpenter as Bob; Helen Crist as Eileen, Robert Bowers as Bruce, two acquaintances at Sunset lodge, all helped to make the play the success it was. They did not forget a line and were not prompted.

Grace Bowers as Marie, and Priscilla Trimmer as June, were love smitten sisters and carried out their character work to perfection. Hillard Gehres as Jerry Higgins, and Luther Bowers as Philip Brandon, sweethearts of Marie and June also carried their acting out in splendid style. They were all that the doting stage lovers should be. Carl Leist in the character of Matthew Brandon around which the whole theme of the play and the plot was built, vied with Miss Helen Bartholomew as mother, for the stellar role in the cast.

Gladden Troutman as Samson Bonapart, the colored bell boy, and Mary Crist as Malindy, the mulatto colored maid were the mirthmakers of the cast. Their work was extraordinary and their makeup was a scream in itself. Their acting was so natural and graceful that it seemed they were professionals, brought in to help the other amateurs along. The whole show was splendidly done, but without Samson and Malinda, who were curtain raisers, the show would not have made the hit it did.

The operetta was given under the direction of Mrs. James J. Moffitt, choir leader and Miss Mary Heffner, choir pianist. Both were proud of the work accomplished and they have reason to be, as the play made such a decided hit.

The singing, solo and chorus work were exceptionally well rendered. The players were greeted with a good house, who were pleased with the singing and dancing as well.

Not a Bad Idea

Insects Delay Own Birth

Observations made by a British scientist has led to the belief that if the weather is bad the small egg moth can postpone its own birthday for days, months or years. The cocoon of this type is ordinarily due to open in February, but if the weather is inclement the birth is usually postponed sometimes for 12 months. Moths have been known to emerge successfully after being imprisoned 11 years.

The lives of human derelicts who prefer drifting to definite purpose consists of short stories, each made up of a separate day.
